

E-learning content creation services

From simply sourcing images to producing media rich bespoke e-learning, we help organisations who are short on resource to create fantastic, ready to roll out e-learning.

We can source and create the right graphics, images and animations, right through to undertaking instructional design, writing assessments, creating podcasts and video-based content.

We'll happily polish up a course you've already created or even take the job off your hands completely.

Why commission us?

- We will save your time so you can concentrate on the big stuff
- We can cast an objective eye over your content
- You can be confident of quality - our industry leading instructional designers are in house
- We can give a rapid turnaround, particularly if you've got a busy schedule and an important deadline
- Your course can be easily edited and therefore updated using our Authoring Tool

We can help you create great e-learning, whatever your budget. Here's what some recent customers say...

"Well done to all, you have achieved a very professional look and feel on a difficult subject." Christine Shakespeare, Basildon DC

"We need our new recruits to hit the ground running, so a Corporate Induction e-learning module is perfect to allow us to give consistent messages in a timely way. Learning Pool helped us to translate our ideas into an engaging and interactive e-learning piece." Colin Smith, LB Bexley

"Learning Pool colleagues interpreted my procurement knowledge and added their own instructional design knowledge and skills to write and deliver the course in an interactive way for the learner. Working with Learning Pool is refreshingly easy!" Jane Waring, Norfolk CC

"The quiz Learning Pool built for the end of our Data Protection Awareness course has had a big impact and has really encouraged learners to focus on the course content. As a result we had a 39% increase in success whereby the course forced learners to study the material more thoroughly. This is really important as it is an issue of compliance and public trust." Clive Maloney, Essex County Council

"Deborah and her team helped us develop a skills check tool to assess new employees' literacy and numeracy levels. It was a pleasure to work with them on this. They were very focussed on what we were trying to do, offered useful suggestions and insights, they were very skilled and professional and always delivered their work on time.

"They were also extremely flexible when we needed to make changes and we are very happy with the end product." Chantal Young, Bath & North East Somerset Council

Many of our customers have approached us with budget to use this financial year. If you're in a similar position you may like to know that our content services start from £900 to develop and build an assessment.
